

# BERRYALLOC®

LAMINATE ■ PARQUET ■ WALLS ■ VINYL PLANKS

BerryAlloc has provided quality laminate flooring to its customers for more than 60 years. An innovative brand with a strong international focus, BerryAlloc has manufacturing sites across Europe and a presence in more than 40 countries worldwide, providing an international benchmark for flooring.

BerryAlloc's slogan is "Wherever. Forever." It is a mission statement that combines quality and durability, which is the very ethos of the company. "Wherever" relates to BerryAlloc products being suitable for all uses, whether private or commercial, and for all sites from homes to shops. The "Forever" refers to the durability of the laminate flooring, and the lifetime warranty the company provides.

The choice of flooring in the range is extensive, with a wide range of designs and colours to create different effects for your space. The laminate flooring is

available in long, short and wide planks to suit your needs, and will fit in rooms ranging from the kitchen and bathroom to living areas. It is also suitable for commercial premises with frequent footfall.

However, if you are looking for something even more durable BerryAlloc also offer the strongest laminate in the world, High-Tech Laminate. Combining beautiful aesthetics with outstanding technical performance, it is suitable even for areas with high traffic such as hotels, restaurants, shops and offices.

While BerryAlloc is determined that their products will be at the forefront of technical performance and durability, they are also highly aware of their environmental impact. The entire collection has been awarded the PEFC-label (Programme for the Endorsement of Forest Certification), which guarantees that their products come from sustainably managed forests.

When BerryAlloc floors are used in a residential setting, they come with a lifetime warranty so you can rest assured that your floors will last as long as you want them to.
